

## Natural Disaster Project

You will be creating a plan to help minimize the damage from Volcanoes, Earthquakes, Hurricanes or Tornadoes.

### Things to Include:

1. What things can you do or plans can you put in place to help prevent a lot of damage from taking place - Preventative Measures.
2. What is your action plan for after the disaster strikes? What will you do to help the people that have been effected?

## Items to Consider:

1. You may submit your plan in written form along with drawings or any other format you think will best demonstrate your thoughts.
2. Look up natural disaster plans from major cities and see what they do.
3. Take a look at what cities do to help clean up and help their citizens after a natural disaster.

## Requirements:

1. A minimum of two pages typed:

a. Size 12

c. Title Page\*\*

b. Times New Roman

d. Works Cited

2. Drawings, Diagrams, Charts, Etc:

These are encouraged, but not a must have. Let me explain. These items are simple to create, they allow you to better express your thoughts, and they will give me a better idea of your plan and how effective it is.
