Common Items:

Where Do They Come From?

Instructions: Choose three items you use on a daily basis and look up their main ingredient. Next, do your best to find where, how, and under conditions these materials are gathered. As we talked about yesterday, a lot of the items we use on a daily basis are collected in less than wonderful conditions for the workers. If you are struggling with items to research, pick some from the following list: Chocolate, Computer Chips, Cashews, Computers, Cell Phone Materials, Coffee, Sulfur, Diamonds, Gold, etc.
